DISASTER IN MEXICO

Flimsy Theater Burns and Nearly 300 People Are Dead.

CRUSHED AND ROASTED ALIVE

Panic Blocks Exits and Third of Audience Dies-Performance in Honor of Governor.

Mexico City, Feb. 16.-Between 250 and 300 people were burned to death and many others injured in a fire which of Acapulco last night. The news of the disaster reached here this afternoon, telegraphic communication with Acapulco having been destroyed last night and today, owing to the fact that the telegraph office adjoining the theater was destroyed and all wires put out of commission.

The Flores theater was a wooden structure and last night more than 1,-000 people crowded into it to witness a special performance given in honor of Governor Damian Flores, of the state of Guerrero. One of the numbers on the program consisted of a series of moving pictures. While the operator was exhibiting these, a film caught fire and the blaze was quickly communicated to some bunting which had been used for decorative purposes. In an incredibly short time the flames spread to all parts of the structure.

There were but three narrow exits and the panic stricken audience rushed to them, many persons falling to be crushed to death, their bodies choking the way to escape for others. The screams of those imprisoned were terrifying.

Owing to the rapidity with which the fire spread and its intense heat it was impossible to attempt rescue work, and those imprisoned were literally roasted alive, as the fire burned with little smoke and few were suffocated.

HURLS BOMB FROM TRAIN.

Black Hand Agents in Gotham Use Elevated Cars.

New York, Feb. 16.-The neighbor good of Second avenue and One Hundred and Sixth street, which is largely inhabited by Italians, was thrown into confusion late tonight by the explosion of a bomb dropped to the street from a passing Second avenue elevated train. The explosion wrecked the windows of a number of stores on Second avenue and caused slight inujries to passersby.

This is the second time in less than three months that the neighborhood has been visited by bombthrowers. The same method of dropping the missile from a passing train was used.

The bomb is believed by the police

to have been intended for Joseph Arana, whose apartments face along the elevated railroad structure and to whom a number of Black Hand letters have been sent recently.

PAY BIG FINE.

Missouri Courts Doubt Waters-Pierce Company Quitting Standard.

Jefferson City, Mo., Feb. 16,-Hen-ry S. Priest, of St. Louis, and H. Clay Pierce, chairman of the board of the Waters-Pierce Oil company, today filed in the Supreme court of Missouri an acceptance of the terms imposed upon the company by the recent ouster order of the court. The fine of \$50,000 was paid. The ouster decree provided that the company must show to the court that it had severed all connection with the Standard Oil company, and a statement to this effect may yet be required by the court. Judge Priest, however, said that he believed today's action covered the case so far as the Mis-souri corporation was concerned, and said he did not know of anything more that could be done.

German Immigration Increasing. St. Paul, Minn. Feb. 16.-According to word received here, 45 families are scheduled to sail from Germany today to take up farms in Pine county, Minnesota. Their coming marks the beginning of a new immigration movement of German farmers into this state and results from the efforts of the Minnesota immigration bureau. The prospective settlers come from Galicia, where they have lived on small farms and have saved small sums, but have not enjoyed the political and religious freedom they desire.

War in Balkans Due in April. Berlin, Feb. 16,-A declaration of war by Austria upon Servia early in April is predicted by the Daily Tage-blatt today. The Tageblatt declares it possesses official information that unless Servia ceases a campaign of insult last Saturday to obtain the consent of sulted from the opposition of Russia to the scheme.

Fear Trip May Ruin Bell.

Fear Trip May Ruin Bell.

From Marshall and Poncha passes on its narrow gauge line, but has thus far managed to keep open the traffic of the Tennessee pass on the main line betewn Denver and Salt Lake.

Philadelphia, Feb. 16 .- The discov

ery today that the crack in the Liberty bell has extended 17 inches beyond its original length caused the starting of another move to prevent the proposed trip of the old relic to the Pacific coast. The second crack extends almost to the top of the bell, and any sudden jolt may cause it to split in half. The committee of the council having the proposed trip of the bell in charge will make a report Thursday.

MAY STOP DIGGING.

Secretary Garfield Threatens to Suspend Klamath Work.

Washington, Feb. 15.-J. Newell, of the reclamation service, stated today that orders had been issued to shut down work on the Klamath irrigation project, pending adjustment of differ-ences between the government and the settlers. This announcement follows a decision by Secretary Garfield that settlers must pay the annual mainte-nance charge of 75 cents per acre, beginning May 1 next, and must make ten equal annual payments of \$3 each per acre for the water right, the first water payment falling due May 1,

Many settlers have announced that they cannot pay \$30 per acre for water, the Water Users' association to inform him what it is willing to do under the circumstances, but as it has not made reply, he felt obliged to stop further construction until satisfactory agreement is reached. The settlers, under the the first construction of the felt obliged to stop further construction until satisfactory agreement is reached. The settlers, under the first construction of the first constr but, as this is the actual proportionate destroyed the Flores theater in the city him what it is willing to do under the ment is reached. The settlers, under the first unit of the project, which is completed, will be furnished water this coming season, if they pay the maintenance charge, but, unless there is a speedy agreement, construction of the Clear lake reservoir will not be carried forward and the second unit of the project will remain undeveloped. Meantime, Engineer Murphy,

charge of the Klamath project, has been called to Washington and will be succeeded by W. W. Slecht.

F. W. Hanna, another reclamation

ngineer, has been sent to resume the preliminary work of the Malheur project and, if the Klamath controversy is not adjusted, work may be concentrated at Malheur.

ROBBERS SECURE \$35,000.

Early Morning Holdup Carried Out Near Denver.

Denver, Feb. 15 .- That the hold-up of the westbound Denver & Rio Grande passenger train, near Denver, at 3:15 this morning, was the work of three instead of two robbers and that the robbery of the mail car gave them a loot of possibly \$35,000, are indicated by the investigation of the railroad and police officials today. So far no tangi ble clew to the identity or whereabouts of the robbers has been found, but it seems probable that the men came to Denver and are now hiding in this city.

The exact amount secured by the robbers cannot be ascertained. It is known, however, that the registered mail sack from Colorado Springs to Denver was empty and that little of value was in the Pueblo-Denver sack. The sack from Portland, Colo., to Denver, however, contained \$400 of money order funds consigned to the Denver postoffice.

The robbery was remarkable for its originality and daring. It took place within eight miles of Denver, within less than two miles of Fort Logan, the United States military reservation, and at a spot where habitations are plentiful. Yet so thorough was the work of the robbers and so well were their plans laid that they had fully an hour and a half start of the officers

Search of the vicinity of the hold-up ndicates that a third man and possibly a fourth were engaged in the robbery that a rubber-tired buggy was in waiting for the actual hold-ups and that torpedoes and red signal fires were used unsuccessfully in an attempt to stop the train before the automatic revolvers of the two men on the train were used in doing this.

ALL FAVOR LOCKS.

Government Engineers Unanimous for Present Canal Plan.

George W. Goethals, chairman of the Isthmian Canal commission, and the members of the board of engineers appointed by President Roosevelt, who went to Panama with President-elect Taft, reached Washington today. The board will report unanimously in favor of continuing the lock plan. Colonel

Goethals said: "I repeat what I said to you a year ago, and that is that the canal will be completed and ships will be traversing it by February 1, 1915. Work on the waterway is going ahead splendidly. I am to appear before the house committee on apropriations Monday, when I will be prepared to give an estimate of

what the canal will cost. "In my judgment, the character of the canal to be built has not changed in the least. The most acceptable that now under construction. Any danger of ships bumping into the gates or other parts of the locks, about which some apprehension has been expressed. will be entirely averted by electrical devices by which the vessels will be kept under control at all times."

Denver, Feb. 15 .- The worst blizzard of the winter is raging in the mountains iof Colorado tonight, and as a result railway lines that have been and provocation Austria will take ac-tion. It is rumored Austria sought officials believe were about to be opentied up nearly a week, and which the ed, will probably continue blockaded the European powers to a temporary for several days more.
